MANASSE MAHUNDA

Product Designer (Msongz) | **4+ Years of Experience**

Lagos, Nigeria | manassethewebdesigner@gmail.com | WhatsApp 09121333315 | Phone 08124350795
Portfolio: manassemahunda.vercel.app

PROFILE

Product designer with 4+ years of experience, blending UI/UX, system thinking and AI workflows to design and prototype digital products faster. I design products that look good and work even better. I have worked remotely with product teams in the United States and Nigeria, across fintech, restaurant technology, lead-capture software and hospitality technology.

EXPERIENCE

Ambassador
Oct 2026 – Present

Cowrywise · Full-time — Nigeria

- Represent Cowrywise in Nigeria, promoting its savings and investment products to new users and communities.
- Share product knowledge and user feedback with the team to help improve how the product is understood and used.

Product Designer
Apr 2024 – Present

Upwork · Freelance — United States

- Design web and mobile product interfaces for international clients, from user flows and wireframes to high-fidelity screens.
- Build clickable Figma prototypes and design systems so clients can test ideas and developers can build with confidence.
- Manage projects end to end: scoping, communication, revisions and on-time delivery.

Product Designer
Sep 2024 – Mar 2026

SyntheticFi · Full-time — United States · Remote

SyntheticFi helps independent financial advisors (RIAs) meet their clients' liquidity needs through lending.

- Designed fintech product experiences, turning complex lending and financial workflows into clear, simple interfaces.
- Produced user flows, wireframes and high-fidelity prototypes in Figma, working closely with product and engineering.
- Kept the interface consistent through reusable components and design standards.

Product Designer
May 2024 – Aug 2024

Mise · Full-time — United States · Remote

Mise is an AI general manager for restaurants, handling recurring admin work such as payroll and inventory.

- Designed screens and flows for an AI-driven restaurant operations product used by hands-on operators.
- Designed review and approval interfaces so operators can quickly check the AI's work and decide with confidence.

Senior Product Designer
Nov 2022 – Nov 2023

Popl · Contract — United States · Remote

Popl is an AI-native go-to-market platform for lead capture at in-person events and conferences.

- Designed lead-capture experiences covering badge scanning, contact enrichment and CRM sync.
- Led design on key product flows from concept to polished prototype, collaborating with product and engineering.
- Simplified fast, in-the-moment interactions so users could capture leads quickly at busy events.

Product Designer **Apr 2023 – Aug 2023**

Oriald (formerly staynaija) · Full-time Nigeria · Remote

Oriald is building an AI-native operating system for hospitality, helping hotels understand operations and automate execution.

- Designed product interfaces for hotel and hospitality teams, from early concepts to clickable prototypes.
- Turned operational data and workflows into clear, easy-to-scan screens.
